Yes I asked Andrea for names yesterday. I am cross referencing them with hers now.

I don't know any of them...have your run by Andrea P-H...she would be most likely to know of these people's publications generally and in conjunction with Asbestos

Tala R. Henry, Ph.D.
Acting Deputy Director

Subject: FW: Epi expertise related to asbestos

Can you give this a quick look and let me know if there are any hard "no's"

This is to add to SACC ad hoc panel list. I asked Hayley about thoughts on epi folks with a focus on asbestos.

Cathy is not a fan of Dave Michaels so I was going to scratch him.

Thanks

Hi Jeff,
Here are a few thoughts:

Dr. David Michaels (GWU; former OSHA Administrator) Dr. Melissa Perry (GWU) Dr. Kathy Hunting (retired from GWU) Dr. Celeste Monforton (GWU and United Support and Memorial for Workplace Fatalities) Dr. Joseph Syracuse (University at Buffalo Toxicology Research Center; chemist, not an epidemiologist but has been involved in asbestos abatement training for years) Dr. S. Lee Hurt (Maryland Department of Health) Dr. D.

Gary Brown (Eastern Kentucky University) Email: gary.brown@eku.edu Dr. Sue Dong (Center for Construction Research and Training; www.cpwr.com)

Please let me know if you need further assistance.

Best,
Hayley

Hayley

Im really focused on the expertise. To qualify they of course can have no conflicts of interest and the government folks could not have helped us directly.

Thanks

Jeff

Hi Jeff,
Do you need internal or external, government or non-government peer reviewers?

Thanks,
Hayley

Hi Hayley,

I was hoping you could help me with something.

I need to identify people to nominate as ad hoc members for our upcoming TSCA SACC for the peer review of asbestos, especially to interpret the epidemiology data of which there is a lot.

If you have any ideas can you let me know as soon as possible?

Thx very much,

Jeff
